<b>Vacancy Rate</b>	<b>Vacancy Rate</b>	<b>Vacancy Rate</b>	<b>Vacancy Rate</b>
\$1,150 <b>Avg. Rent</b>	\$1,307 <b>Avg. Rent</b>	\$1,649 <b>Avg. Rent</b>	\$1,921 <b>Avg. Rent</b>

“The apartment vacancy rate remained low but edged higher as supply increased more than demand; meanwhile, rents continued to increase.”

**Eric Bond**  
Principal, Market Analysis (Vancouver)

\*CMHC collects data on the primary and secondary rental market annually, in the fall. These data refer to the primary rental market, which only includes rental units in privately-initiated apartment structures containing at least three rental units. The secondary rental market covers rental dwellings that were not originally purpose-built for the rental market, including rental condominiums. The primary vacancy rate and rent level is based on all surveyed structures, while the rent increase is based only on structures common to the survey sample in both the current and previous year.

## Key analysis findings

- Strong demand kept the vacancy rates at or below 1% for both primary rental apartments<sup>1</sup> and rental condominium apartments.
- The average apartment rent increased 6.2% over the past year, which was more than the provincially-allowable increase<sup>2</sup> of 4.0% in 2018.
- The average asking rent for vacant units was \$1,578 compared to \$1,383 for occupied rental apartments in October 2018.

## Vacancy rates remain low

The rental market continues to be very tight in the Vancouver Census Metropolitan Area (CMA). The vacancy rate for purpose-built apartments increased slightly to 1.0% in 2018 from 0.9% in 2017. In general, vacancy rates declined in the cities of Vancouver and Surrey and rose in Burnaby and New Westminster. Despite increased purpose-built rental construction, the overall vacancy rate has remained at or under 1% for five consecutive years.

## Strong local economy contributing to growing rental demand

Employment growth in the Vancouver CMA moderated to 1.9% in the past 12 months to October 2018, and the unemployment rate remained low at 4.3%. However, the improving economic performance of other Canadian provinces has meant that net interprovincial migration to the Vancouver CMA has been lower in 2018 than in previous years.

## Cost of entry-level homeownership keeping some in rental housing

Following several years of strong price growth, entry-level home prices remain high relative to local incomes, resulting in many potential home buyers facing financial barriers to entry into homeownership (Figure 1). As a result, some potential homebuyers may choose to save and stay in rental housing longer, supporting rental demand.

## Sustained low vacancy rates put upward pressure on same-sample rents

Same-sample average rents<sup>3</sup> for apartment units in the primary rental market increased 6.2% for all bedroom

types within the Vancouver CMA over last year. This represents the fourth consecutive year average rents have increased by more than the provincially-allowable increase,<sup>2</sup> which suggests that landlords, through turnover of long-term tenants, are able to increase rents to market levels that are higher.

Figure 1

Sources: CMHC Rental Market Survey, CMHC Condominium Apartment Survey, REBGV, FVREB. Internal calculations by CMHC.

Note: Carrying cost includes mortgage payment for insured 25 year amortization with a 5% down payment, median condominium (strata) fees and median property taxes.

<sup>1</sup> The survey is based on privately-initiated rental apartment structures of three or more units.

<sup>2</sup> The BC Residential Tenancy Branch imposes tenant-based rent guidelines in BC. For 2018, the allowable rent increase was 4.0%. When a unit turns over to a new tenant, the landlord is free to set a new rent amount at the market level.

<sup>3</sup> The estimate is based on structures that were common to the survey sample for both the previous year and the current Rental Market Surveys. The change in rent in existing structures is an estimate of the change in rent that the landlords charge and removes compositional effects on the rent level movement due to new buildings, conversions, and survey sample rotation. However, some composition effects still remain (e.g. rental units renovated/upgraded or changing tenants) because the survey does not collect data to such a level of detail.

## Asking rents for vacant units are higher than those paid for occupied units

The average asking rent for vacant units was higher compared to the overall average rent for occupied units in the Vancouver CMA, suggesting that market rents currently faced by prospective tenants continue to see strong upward pressure due to the low number of vacancies in the market (Table 2). This also suggests that longer term tenants with lower-than-market rents may be less inclined to move to a different suite, as reflected in the continued low turnover rate of 14.1%<sup>4</sup> observed in 2018.

## Supply of purpose-built rental units increasing

The number of purpose-built rental apartment units under construction in the Vancouver CMA has maintained its elevated level and was equivalent to 5.0% of the rental universe at the end of Q3 2018 (Figure 2). The universe of rental apartments increased by a net 793 units this year; however, the results were not evenly distributed across municipalities, with the Tri-Cities and Burnaby seeing declines of 339 and 177 units respectively due to recent renovations and demolitions.

Table 2

Average rent occupied and vacant apartment units												
Average Rent (\$) of Occupied and Vacant Apartment Units												
	Occupied 1 Bedroom		Vacant 1 Bedroom		Occupied 2 Bedroom		Vacant 2 Bedroom		Occupied Total		Vacant Total

Source: CMHC Rental Market Survey

Note: Additional data on rents for vacant and occupied units are available in CMHC's [online data tables](#).

Figure 2

Source: CMHC Starts and Completions Survey, CMHC Rental Market Survey.

Note: Rental Units in structures with 5 or fewer units are excluded due to the majority of those units being accessory suites and laneway homes, which are not included in the primary rental market.

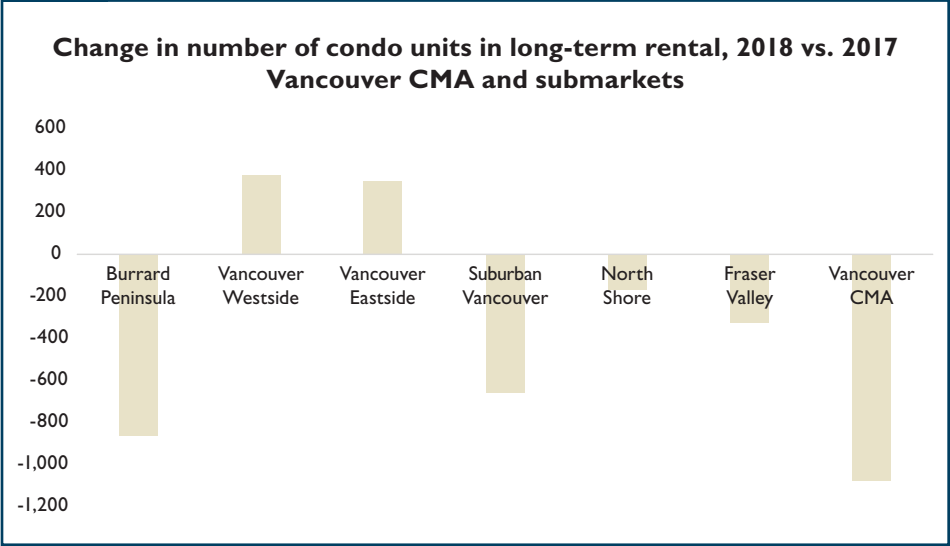

<sup>4</sup> Turnover is a measure of mobility of tenants and provides a gauge of how often units become available in an area.

Number of rental apartment condos decreases

The number of condos in long-term rental declined by 1,081 units as investors sold or repurposed their properties. As a result, the proportion of condos being rented declined to 24.5% in 2018 from 25.8% in 2017. The change in investor activity varied across the region, with most of the decline being concentrated in the Burrard Peninsula and Suburban Vancouver survey zones (Figure 3).

With strong resale market price gains for apartment condominiums in recent years, some investors may have sold their unit, resulting in its removal from the rental market. The increased popularity of short-term vacation rentals may also have influenced some investors, particularly those in downtown Vancouver, to list their properties in those markets instead of seeking a long-term tenant.

Figure 3

Source: CMHC Condominium Apartment Survey.  
Note: More detailed data is available in the Appendix Table 4.3.1.

Apartment condo vacancy rate remains very low

Strong rental demand, coupled with a declining stock of units in long-term rental, kept vacancy rates for apartment condominiums low at 0.3%

in 2018. Consistent with the sustained low vacancy rates observed, the average monthly rent for apartment condominiums increased to \$1,855.

RMS ZONE DESCRIPTIONS - VANCOUVER CMA	
Zone 1	<b>West End, Stanley Park</b> is the area between Stanley Park and Denman Street and extends to Coal Harbour to the north and English Bay to the south.
Zone 2	<b>English Bay</b> runs along Sunset Beach and English Bay to the south, connects to Davie Street to the North and Burrard Street to the East.
Zone 3	<b>Downtown</b> is the remainder of the West End not covered in Zone 1 and 2. Does not include the Downtown Eastside.
<b>Zones 1-3</b>	<b>West End/Downtown</b>
Zone 4	<b>South Granville/Oak</b> is west of Mount Pleasant and extends south to 33rd Avenue and west to Granville Street. Also includes the Fairview area and contains a section between Broadway to the north and 16th Avenue to the south, Burrard Street to the west and Granville Street to the east.
Zone 5	<b>Kitsilano/Point Grey</b> is the area west of South Granville/Oak that extends along 16th Avenue to the University Endowment Land.
Zone 6	<b>Westside/Kerrisdale</b> is the area south of Kitsilano/Point Grey and South Granville/Oak, and includes the areas: Kerrisdale, Mackenzie Heights, Dunbar, Shaughnessy and Oakridge.
Zone 7	<b>Marpole</b> is an area in South Vancouver that borders south of 57th Avenue between Cambie Street to the east and MacDonald Street to the west, and extends south down to the Fraser River.
Zone 8	<b>Mount Pleasant/Renfrew Heights</b> is the area that extends from the Mount Pleasant area to the west to Renfrew Heights to the east, and includes the neighbourhoods of Fraser and Knight. The area boundary to the north is Great Northern Way and Broadway, and roughly 33rd Avenue to the South.
Zone 9	<b>East Hastings</b> is the northeast area of Vancouver City, and includes the Downtown Eastside.
Zone 10	<b>Southeast Vancouver</b> includes the areas: Killarney, Fraserview, Collingwood and Champlain Heights.
<b>Zones 1-10</b>	<b>Vancouver City</b>
Zone 11	<b>University Endowment Lands</b> includes both the municipality and University of British Columbia. Note: the Rental Survey does not include student housing.
Zone 12	<b>Central Park/Metrotown</b> is the area between Boundary Road to the west and Royal Oak Avenue to the east, Moscrop Street and Gilpin Street to the north and Marine Drive to the south.
Zone 13	<b>Southeast Burnaby</b> extends to the border of New Westminster and includes the areas: Edmonds, Middlegate, Buckingham Heights, Deer Lake and Burnaby Lake.
Zone 14	<b>North Burnaby</b> is the northern half of Burnaby and includes the areas: Willingdon Heights, Brentwood Park, Capitol Hill, Sperling, Simon Fraser and Lougheed.
<b>Zones 12-14</b>	<b>Burnaby City</b>
Zone 15	<b>New Westminster</b> is the city boundaries.
Zone 16	<b>North Vancouver City</b> is the city boundaries.
Zone 17	<b>North Vancouver DM</b> is the district boundaries.
Zone 18	<b>West Vancouver</b> is the district boundaries.
Zone 19	<b>Richmond</b> is the city boundaries.
Zone 20	<b>Delta</b> is the corporation boundaries.
Zone 21	<b>Surrey</b> is the city boundaries.
Zone 22	<b>White Rock</b> is the city boundaries.
Zone 23	<b>Langley City and Langley DM</b> includes both the city and township boundaries.
Zone 24	<b>Tri-Cities</b> consists of Coquitlam, Port Coquitlam and Port Moody.
Zone 25	<b>Pitt Meadows/Maple Ridge</b> is the district boundaries for both municipalities.
<b>Zones 1-25</b>	<b>Vancouver CMA</b>

CONDOMINIUM SUB AREA DESCRIPTIONS - VANCOUVER CMA	
Sub Area 1	<b>North Shore</b> includes RMS Zone 16 (North Vancouver City), Zone 17 (North Vancouver DM), and Zone 18 (West Vancouver).
Sub Area 2	<b>Burrard Peninsula</b> includes RMS Zone 1 (West End, Stanley Park), Zone 2 (English Bay), and Zone 3 (Downtown).
Sub Area 3	<b>Vancouver Westside</b> includes RMS Zone 4 (South Granville/Oak), Zone 5 (Kitsilano/Point Grey), Zone 6 (Westside/Kerrisdale), Zone 7 (Marpole), and Zone 11 (University Endowment Lands).
Sub Area 4	<b>Vancouver Eastside</b> includes RMS Zone 8 (Mount Pleasant/Renfrew Heights), Zone 9 (East Hastings) and Zone 10 (Southeast Vancouver).
<b>Sub Areas 3-4</b>	<b>Vancouver East/Westside</b> includes RMS Zone 4 (South Granville/Oak), Zone 5 (Kitsilano/Point Grey), Zone 6 (Westside/Kerrisdale), Zone 7 (Marpole), Zone 8 (Mount Pleasant/Renfrew Heights), Zone 9 (East Hastings), Zone 10 (Southeast Vancouver), and Zone 11 (University Endowment Lands).
<b>Sub Areas 2-3-4</b>	<b>City of Vancouver</b>
Sub Area 5	<b>Suburban Vancouver</b> includes RMS Zone 12 (Central Park/Metrotown), Zone 13 (Southeast Burnaby), Zone 14 (North Burnaby), Zone 15 (New Westminster), Zone 19 (Richmond), and Zone 24 (Tri-Cities).
Sub Area 6	<b>Fraser Valley</b> includes RMS Zone 20 (Delta), Zone 21 (Surrey), Zone 22 (White Rock), Zone 23 (Langley City and Langley D.M.), and Zone 25 (Pitt Meadows/Maple Ridge).
<b>Sub Areas 1-6</b>	<b>Vancouver CMA</b>

NOTE: Refer to RMS Zone Descriptions page for detailed zone descriptions.

## TECHNICAL NOTE:

*Difference between Percentage Change of Average Rents (Existing and New Structures) AND Percentage Change of Average Rents from Fixed Sample (Existing Structures Only):*

**Percentage Change of Average Rents (New and Existing Structures):** The increase/decrease obtained from the calculation of percentage change of average rents between two years (example: \$500 in the previous year vs. \$550 in current survey represents an increase of 10 percent) is impacted by changes in the composition of the rental universe (e.g. the inclusion of newly built luxury rental buildings in the survey, rental units renovated/upgraded or changing tenants could put upward pressure on average rents in comparison to the previous year) as well as by the rent level movement (e.g. increase/decrease in the level of rents that landlords charge their tenants).

**Percentage Change of Average Rents from Fixed Sample (Existing Structures Only):** This is a measure that estimates the rent level movement. The estimate is based on structures that were common to the survey sample for both the previous year and the current Rental Market Surveys. However, some composition effects still remain e.g. rental units renovated/upgraded or changing tenants because the survey does not collect data to such level of details.

## METHODOLOGY FOR RENTAL MARKET SURVEY

Canada Mortgage and Housing Corporation (CMHC) conducts the **Rental Market Survey (RMS)** every year in October to estimate the relative strengths in the rental market. The survey is conducted on a sample basis in all urban areas with populations of 10,000 and more. The survey targets only privately initiated structures with at least three rental units, which have been on the market for at least three months. The survey collects market rent levels, availability (outside Quebec), turnover and vacancy unit data for all sampled structures.

The survey is conducted by a combination of telephone interviews and site visits, and information is obtained from the owner, manager, or building superintendent. The survey is conducted during the first two weeks of October, and the results reflect market conditions at that time.

CMHC is constantly reviewing the Universe of rental structures in the rental market Universe to ensure that it is as complete as possible. Every year, any newly completed rental structures with at least 3 rental units are added to the Universe. In addition to this, CMHC undertakes comprehensive reviews by comparing the Universe listing to other sources of data to ensure that the list of structures is as complete as possible.

CMHC's Rental Market Survey provides a snapshot of vacancy, availability (outside Quebec), and turnover rates and average rents in both new and existing structures. There also exists a measure for the change in rent that is calculated based on existing structures only. The estimate is based on structures that were common to the survey sample for both the previous and the current Rental Market Surveys. The change in rent in existing structures is an estimate of the change in rent that the landlords charge and removes compositional effects on the rent level movement due to new buildings, conversions, and survey sample rotation. The estimate of percent change in rent is available in all Canada and Provincial Highlights publications, and also in the CMA reports. The rent levels in new and existing structures are also published. While the percent change in rents in existing structures published in the reports are statistically significant, changes in rents that one might calculate based on rent levels in new and existing structures may or may not be statistically significant.

## METHODOLOGY FOR CONDOMINIUM APARTMENT SURVEY

Canada Mortgage and Housing Corporation (CMHC) conducts the Condominium Apartment Survey (CAS) in late summer and early fall to estimate the relative strengths in the condo apartment rental market. The CAS collects the number of units being rented out and the vacancy and rent levels of these units in the following CMAs: Calgary, Edmonton, Gatineau, Halifax, Hamilton, Kelowna, Kitchener, London, Montréal, Ottawa, Québec, Regina, Saskatoon, Toronto, Vancouver, Victoria and Winnipeg. The CAS is conducted by telephone interviews and information is obtained from the property management company, condominium (strata) board, or building superintendent. If necessary, this data can be supplemented by site visits if no telephone contact is made.

CMHC publishes the number of units rented, vacancy rates and average rents from the Condominium Apartment Survey. A letter code representing the statistical reliability (i.e., the coefficient of variation (CV)) for each estimate is provided to indicate the data reliability.

## RENTAL MARKET SURVEY (RMS) AND CONDOMINIUM APARTMENT SURVEY (CAS) DATA RELIABILITY

CMHC does not publish an estimate (e.g. Vacancy Rates and Average Rents) if the reliability of the estimate is too low or the confidentiality rules are violated. The ability to publish an estimate is generally determined by its statistical reliability, which is measured using the coefficient of variation (CV). CV of an estimate is defined as the ratio of the standard deviation to the estimate and CV is generally expressed a percentage. For example, let the average rent for one bedroom apartments in a given CMA be  $\bar{x}$  and its standard deviation be  $\sigma_{\bar{x}}$ . Then the Coefficient of Variation is given by  $CV = \frac{\sigma_{\bar{x}}}{\bar{x}}$ .

### Reliability Codes for Proportions

CMHC uses CV, sampling fraction and universe size to determine the ability to publish proportions such as vacancy rates, availability rates and turnover rates. The following letter codes are used to indicate the level of reliability of proportions:

a — Excellent

b — Very good

c — Good

d — Fair (Use with Caution)

\*\* — Poor — Suppressed

++ — Change in rent is not statistically significant. This means that the change in rent is not statistically different than zero (0).

- — No units exist in the universe for this category

n/a — Not applicable

The following two tables indicate the level of reliability of proportions:

If the proportion is Zero (0) and sampling fraction is less than 100% then the following levels are assigned:

#### Sampling Fraction (%) range

Structures in Universe	(0,20]*	(20,40]	(40,60]	(60,80]	(80,100)
3 – 10	Poor	Poor	Poor	Poor	Poor
11 – 20	Poor	Fair	Fair	Fair	Good
21 – 40	Poor	Fair	Fair	Good	Very Good
41 – 80	Poor	Fair	Good	Good	Very Good
81+	Poor	Good	Good	Very Good	Very Good

\*(0, 20] means sampling fraction is greater than 0% but less than or equal to 20%; others are similar.

Otherwise, the following table is used to determine the reliability level of proportions:

#### Coefficient of Variation (CV) %

Vacancy Rate	0	(0,5]	(5,10]	(10,16.5]	(16.5,33.3]	(33.3,50]	50+
(0,0.75]	Excellent	Excellent	Excellent	Excellent	Excellent	V. Good	V. Good
(0.75,1.5]	Excellent	Excellent	Excellent	Excellent	Excellent	Fair	Poor
(1.5,3]	Excellent	Excellent	Excellent	V. Good	Good	Poor	Poor
(3,6]	Excellent	Excellent	V. Good	Good	Fair	Poor	Poor
(6,10]	Excellent	Excellent	V. Good	Good	Poor	Poor	Poor
(10,15]	Excellent	Excellent	Good	Fair	Poor	Poor	Poor
(15,30]	Excellent	Excellent	Fair	Poor	Poor	Poor	Poor
(30,100]	Excellent	Excellent	Poor	Poor	Poor	Poor	Poor

## Reliability Codes for Averages and Totals

CMHC uses the CV to determine the reliability level of the estimates of average rents and a CV cut-off of 10% for publication of totals and averages. It is felt that this level of reliability best balances the need for high quality data and not publishing unreliable data. CMHC assigns a level of reliability as follows (CV's are given in percentages):

- a — If the CV is greater than 0 and less than or equal to 2.5 then the level of reliability is **Excellent**.
- b — If the CV is greater than 2.5 and less than or equal to 5 then the level of reliability is **Very Good**.
- c — If the CV is greater than 5 and less than or equal to 7.5 then the level of reliability is **Good**.
- d — If the CV is greater than 7.5 and less than or equal to 10 then the level of reliability is **Fair**.
- \*\* — If the CV is greater than 10 then the level of reliability is **Poor**. (Do Not Publish)

## Arrows indicate Statistically Significant Changes

Use caution when comparing statistics from one year to the next. Even if there is a year over year change, it is not necessarily a statistically significant change. When applicable, tables in this report include indicators to help interpret changes:

- ↑ indicates the year-over-year change is a statistically significant increase.
- ↓ indicates the year-over-year change is a statistically significant decrease.
- indicates that the effective sample does not allow one to interpret any year-over-year change as being statistically significant.
- △ indicates that the change is statistically significant

## DEFINITIONS

**Availability:** A rental unit is considered available if the existing tenant has given, or has received, notice to move, and a new tenant has not signed a lease; or the unit is vacant (see definition of vacancy below).

**Rent:** The rent refers to the actual amount tenants pay for their unit. No adjustments are made for the inclusion or exclusion of amenities and services such as heat, hydro, parking, and hot water. For available and vacant units, the rent is the amount the owner is asking for the unit.

It should be noted that the average rents reported in this publication provide a sound indication of the amounts paid by unit size and geographical sector. Utilities such as heating, electricity and hot water may or may not be included in the rent.

**Rental Apartment Structure:** Any building containing three or more rental units, of which at least one unit is not ground oriented. Owner-occupied units are not included in the rental building unit count.

**Rental Row (Townhouse) Structure:** Any building containing three or more rental units, all of which are ground oriented with vertical divisions. Owner-occupied units are not included in the rental building unit count. These row units in some centres are commonly referred to as townhouses.

**Vacancy:** A unit is considered vacant if, at the time of the survey, it is physically unoccupied and available for immediate rental.

**Turnover:** A unit is counted as being turned over if it was occupied by a new tenant moved in during the past 12 months. A unit can be counted as being turned over more than once in a 12 month period.

### Definitions of Census Areas referred to in this publication are as follows:

A census metropolitan area (CMA) or a census agglomeration (CA) is formed by one or more adjacent municipalities centred on a large urban area (known as the urban core). The census population count of the urban core is at least 10,000 to form a census agglomeration and at least 50,000 to form a census metropolitan area. To be included in the CMA or CA, other adjacent municipalities must have a high degree of integration with the central urban area, as measured by commuting flows derived from census place of work data. CMAs and CAs contain whole municipalities or Census Subdivisions.

October 2017 and October 2018 data is based on Statistics Canada's 2016 Census area definitions.

## Acknowledgement

The Rental Market Survey and the Condominium Apartment Survey could not have been conducted without the cooperation of the rental property owners, managers, building superintendents and household members throughout Canada. CMHC acknowledges their hard work and assistance in providing timely and accurate information. As a result of their contribution CMHC is able to provide information that benefits the entire housing industry.

## CMHC HELPS CANADIANS MEET THEIR HOUSING NEEDS.

Canada Mortgage and Housing Corporation (CMHC) has been helping Canadians meet their housing needs for more than 70 years. As Canada's authority on housing, we contribute to the stability of the housing market and financial system, provide support for Canadians in housing need, and offer unbiased housing research and advice to Canadian governments, consumers and the housing industry. Prudent risk management, strong corporate governance and transparency are cornerstones of our operations.

For more information, visit our website at [www.cmhc.ca](http://www.cmhc.ca) or follow us on [Twitter](#), [LinkedIn](#), [Facebook](#), [Instagram](#) and [YouTube](#).

You can also reach us by phone at 1-800-668-2642 or by fax at 1-800-245-9274.

Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

# Housing market intelligence you can count on

## PUBLICATIONS AND REPORTS AVAILABLE ONLINE

*Local, regional and national analysis and data on current market conditions and future trends.*

- Housing Information Monthly
- Housing Market Assessment
- Housing Market Insight
- Housing Now Tables
- Housing Market Outlook, Canada
- Housing Market Outlook, Highlight Reports – Northern Housing
- Housing Market Outlook, Canada and Major Centres
- Preliminary Housing Starts Data
- Rental Market Reports, Canada and Provincial Highlights
- Rental Market Reports, Major Centres
- Seniors' Housing Reports
- Mortgage and Consumer Credit Trends Report

## DATA TABLES AVAILABLE ONLINE

- Funding and Securitization Data
- Household Characteristics
- Housing Market Data
- Housing Market Indicators
- Mortgage and Debt Data
- Rental Market Data

## HOUSING MARKET INFORMATION PORTAL

*The housing data you want, the way you want it.*

- ✓ Information in one central location
- ✓ Desktop and mobile friendly
- ✓ Neighbourhood-level data
